

Coding & Solution

Date	15 March 2026
Team ID	xxxxxx
Project Name	Rising Water
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/nittalikhitha8-glitch/rising-water
Programming Language(s)	HTML, CSS, JavaScript, Python
Framework(s) Used	Flask for Backend, Bootstrap for Frontend
Key Features Implemented	1. User Registration with Email, Gmail, Facebook login 2. User Login with authentication
Pending / Incomplete Features	1. Password Reset functionality 2. User Dashboard after login
Setup / Run Instructions	1. Install Python 3.9+ and pip 2. Run pip install flask 3. Clone/download project folder

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Partial
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	No

Additional Notes / Comments:

The project follows basic coding standards with proper naming conventions and error handling. Code is currently in progress to be made fully modular. Version control setup on GitHub is pending but will be completed before final submission. Application runs successfully for Registration and Login features.
